Independent Auditor's Report

To the Members of NBI Investments Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of NBI Investments Limited (the "Company"), which are presented in pages 4 to 26 and comprise the statement of financial position as at 31 December 2016, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2016, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and the requirements of the Cyprus Companies Law, Cap. 113.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Cyprus, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors for the Financial Statements

The Board of Directors is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and the requirements of the Cyprus Companies Law, Cap. 113, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design
 and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
 provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for
 one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
 override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
 Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.

Independent Auditor's Report (continued)

To the Members of NBI Investments Limited

- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and
 whether the financial statements represent the underlying transactions and events in a manner that achieves a true and
 fair view.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal Requirements

Pursuant to the additional requirements of the Auditors and Statutory Audits of Annual and Consolidated Accounts Laws of 2009 to 2016, we report the following:

- We have obtained all the information and explanations we considered necessary for the purposes of our audit.
- In our opinion, proper books of account have been kept by the Company, so far as appears from our examination of these books.
- The Company's financial statements are in agreement with the books of account.
- In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Cyprus Companies Law, Cap. 113, in the manner so required.

Other Matter

This report, including the opinion, has been prepared for and only for the Company's members as a body in accordance with Section 34 of the Auditors and Statutory Audits of Annual and Consolidated Accounts Laws of 2009 to 2016 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whose knowledge this report may come to.

Companies which do not distribute 70% of their profits after tax, as defined by the relevant tax law, within two years after the end of the relevant tax year, will be deemed to have distributed as dividends 70% of these profits. Special contribution for defence at 17% will be payable on such deemed dividends to the extent that the ultimate shareholders are both Cyprus tax resident and Cyprus domiciled. The amount of deemed distribution is reduced by any actual dividends paid out of the profits of the relevant year at any time. This special contribution for defence is payable by the Company for the account of the shareholders.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

1. Incorporation and principal activities

Country of incorporation

The Company NBI Investments Limited (the "Company") was incorporated in Cyprus on 23 June 2011 as a private limited liability company under the provisions of the Cyprus Companies Law, Cap. 113. Its registered office is at Constantinou Paparigopoullou 9, Frema House, Office M01, 3106, Limassol, Cyprus.

Principal activity and nature of operations of the Company

The principal activities of the Company are the investment services which are the reception and transmission of orders in relation to one or more financial instruments and execution of orders on behalf of clients and the portfolio management as well as the ancillary services which are the safekeeping and administration of financial instruments for the account of clients, including custodianship and related services such as cash/collateral management, the granting credits or loans to an investor to allow him to carry out a transaction in one or more financial instruments, where the firm granting the credit or loan is involved in the transaction, and the foreign exchange services where these are connected to the provision of investment services. The Company is regulated from the Cyprus Securities and Exchange Commission (CYSEC) under authorisation number 162/12 issued on 4 January 2012 by which it is licensed to provide the above mentioned services.

2. Significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented in these financial statements unless otherwise stated.

Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union (EU) and the requirements of the Cyprus Companies Law, Cap.113. The financial statements have been prepared under the historical cost convention as modified by the revaluation of, and financial assets and financial liabilities at fair value through profit or loss.

Adoption of new and revised IFRSs

During the current year the Company adopted all applicable new and revised International Financial Reporting Standards (IFRSs), all revised International Accounting Standards (IASs) and all new and revised interpretations which are relevant to its operations and are applicable for accounting periods beginning on 1 January 2016 as stated below:

- International Accounting Standard (IAS) 16 Property, Plant & Equipment and IAS 38 Intangible assets (Amendment): Clarification of Acceptable Methods of Depreciation and Amortisation.
- IFRS 11 Joint arrangements: Accounting for Acquisitions of Interests in Joint Operations.
- IAS 27 Separate Financial Statements.
- IAS 1 Disclosure Initiative (Amendment).
- Annual Improvements IFRSs 2012-2014 Cycle.
- IAS 19 Employee benefits (Amended): Employee Contributions.
- Annual Improvements IFRSs 2010–2012 Cycle.

Adoption of the above did not have a material effect on the financial statements of the Company.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Adoption of new and revised IFRSs (continued)

Standards, interpretations and amendments to published standards that are not yet effective

Up to the date of approval of the financial statements, certain new standards, interpretations and amendments to existing standards and Interpretations have been published, that are not yet effective for the current reporting period, and which the Company has not early adopted, as follows:

(i) Standards and interpretations issued by the IASB and adopted by the EU

- IFRS 9 "Financial Instruments" (effective for annual periods beginning on or after 1 January 2018).
- IFRS 15 "Revenue from Contracts with Customers" (effective for annual periods beginning on or after 1 January 2018).

(ii) Issued by the IASB but not yet adopted by the European Union

- IFRS 15 Revenue from Contracts with Customers (Clarifications) (effective for annual periods beginning on or after 1 January 2018).
- IFRS 16 "Leases" (effective for annual periods beginning on or after 1 January 2019).
- Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and JointVentures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture.
- Amendments to IAS 12 Income Taxes: Recognition of Deferred Tax Assets for Unrealised Losses (effective for annual periods beginning on or after 1 January 2017).
- IAS 7 (Amendments) "Disclosure Initiative" (effective for annual periods beginning on or after 1 January 2017).
- IFRS 2 (Amendments) "Classification and Measurement of Share based Payment Transactions" (effective for annual periods beginning on or after 1 January 2018).
- IAS 40 (Amendments) "Transfers of Investment Property" (effective for annual periods beginning on or after 1 January 2018).
- International Financial Reporting Interpretations Committee (IFRIC) Interpretation 22: Foreign Currency Transactions and Advance Consideration (effective for annual periods beginning on or after 1 January 2018).
- Annual improvements to IFRS Standards 2014 2016 Cycle (effective for annual periods beginning on or after 1 January 2018).

The above are not expected to have a significant impact on the Company's financial statements when they become effective.

Revenue recognition

Revenue comprises the invoiced amount for the sale of services net of Value Added Tax, rebates and discounts. Revenue comprises the fair value of the consideration received or receivable for the sale of services in the ordinary course of the Company's activities. Revenue is recognised when it is probable that economic benefits associated with the transaction will flow to the Company and the revenue can be reliably measured.

Rendering of services

Sales of services are recognised in the accounting period in which the services are rendered by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

Fee and commission income

Brokerage commissions: Brokerage commissions are recognised when the ownership of the securities is transferred.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Revenue recognition (continued)

Interest income

Interest income is recognised on a time-proportion basis using the effective interest method.

Dividend income

Dividend income is recognised when the right to receive payment is established.

Employee benefits

The Company's contributions are expensed as incurred and are included in staff costs. The Company has no further payment obligations once the contributions have been paid. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Finance income

Interest income is recognised on a time-proportion basis using the effective method.

Finance costs

Interest expense and other borrowing costs are charged to profit or loss as incurred.

Foreign currency translation

(1) Functional and presentation currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Euro (\in) , which is the Company's functional and presentation currency.

(2) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. Translation differences on non-monetary items such as equities held at fair value through profit or loss are reported as part of the fair value gain or loss.

Tax

Current tax liabilities and assets are measured at the amount expected to be paid to or recovered from the taxation authorities, using the tax rates and laws that have been enacted, or substantively enacted, by the reporting date.

Dividends

Dividend distribution to the Company's shareholders is recognised in the Company's financial statements in the year in which they are approved by the Company's shareholders.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of property, plant and equipment.

Depreciation is calculated on the straight-line method so as to write off the cost of each asset to its residual value over its estimated useful life. The annual depreciation rates used are as follows:

Furniture, fixtures and office equipment 10
Computer hardware 20

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Where the carrying amount of an asset is greater than its estimated recoverable amount, the asset is written down immediately to its recoverable amount.

Expenditure for repairs and maintenance of property, plant and equipment is charged to profit or loss of the year in which it is incurred. The cost of major renovations and other subsequent expenditure are included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Company. Major renovations are depreciated over the remaining useful life of the related asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in profit or loss in the year in which the expenditure is incurred. The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in profit or loss in the expense category consistent with the function of the intangible asset.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash generating unit level. Such intangibles are not amortised. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Computer software

Costs that are directly associated with identifiable and unique computer software products controlled by the Company and that will probably generate economic benefits exceeding costs beyond one year are recognised as intangible assets. Subsequently computer software is carried at cost less any accumulated amortisation and any accumulated impairment losses. Expenditure which enhances or extends the performance of computer software programs beyond their original specifications is recognised as a capital improvement and added to the original cost of the computer software. Costs associated with maintenance of computer software programs are recognised as an expense when incurred. Computer software costs are amortised using the straight-line method over their useful lives, not exceeding a period of three years. Amortisation commences when the computer software is available for use.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

Financial instruments

Financial assets and financial liabilities are recognised in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Trade receivables

Trade receivables are measured at initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Financial instruments (continued)

Financial assets

(1) Classification

The Company classifies its financial assets in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available for-sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of financial assets at initial recognition.

<u>Financial assets at fair value through profit or loss</u>

This category has two sub-categories: financial assets held for trading and those designated at fair value through profit or loss at inception. A financial asset is classified as held for trading if acquired principally for the purpose of selling in the short term. Financial assets designated as at fair value through profit or loss at inception are those that are managed and their performance is evaluated on a fair value basis, in accordance with the Company's documented investment strategy. Information about these financial assets is provided internally on a fair value basis to the Company's key management personnel. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within twelve months from the reporting date.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and for which there is no intention of trading the receivable. They are included in current assets, except for maturities greater than twelve months after the reporting date. These are classified as non-current assets. The Company's loans and receivables comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Held-to-maturity investments

Held to maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company's management has the positive intention and ability to hold to maturity, that do not meet the definition of loans and receivables. During the year, the Company did not hold any investments in this category.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets, unless management intends to dispose of the investment within twelve months of the reporting date.

(2) Recognition and measurement

Regular way purchases and sales of financial assets are recognised on trade-date which is the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in profit or loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Financial instruments (continued)

Financial assets (continued)

Gains or losses arising from changes in the fair value of the "financial assets at fair value through profit or loss" category are presented in profit or loss in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the profit or loss when the Company's right to receive payments is established.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Company establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same and discounted cash flow analysis, making maximum use of market inputs and relying as little as possible on entity specific inputs. Equity investments for which fair values cannot be measured reliably are recognised at cost less impairment.

Changes in the fair value of monetary securities denominated in a foreign currency and classified as available-for-sale are analysed between translation differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. The translation differences on monetary securities are recognised in profit or loss, while translation differences on non-monetary securities are recognised in other comprehensive income. Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognised in other comprehensive income.

When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments recognised in other comprehensive income are included in profit or loss as gains and losses on available-for-sale financial assets.

Interest on available-for-sale securities calculated using the effective interest method is recognised in the profit or loss. Dividends on available-for-sale equity instruments are recognised in profit or loss when the Company's right to receive payments is established.

The Company assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets the cumulative loss which is measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, is removed from equity and recognised in profit or loss.

For financial assets measured at amortised cost, if in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of available for sale equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. In respect of available for sale debt securities, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

Cash and cash equivalents

Cash and cash equivalents include cash in hand and deposits held at call with banks and bankoverdrafts. In the statement of financial position, bank overdrafts are shown withinborrowings in current liabilities

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Financial instruments (continued)

Borrowings

Borrowings are recorded initially at the proceeds received, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Trade payables

Trade payables are initially measured at fair value and are subsequently measured at amortised cost, using the effective interest rate method.

Derivatives and hedge accounting

Derivatives are initially recognised at fair value and any directly attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value and any changes therein are generally recognised in profit or loss. Fair value is calculated using the current values, discounted cash flow analysis or option valuation methods. Derivatives are recorded as assets when their fair value is positive and as liabilities when their fair value is negative.

The Company holds derivative financial instruments to hedge its foreign currency and interest rate exposures.

Embedded derivatives are separated from the host contract and accounted for separately if certain criteria are met.

Derecognition of financial assets and liabilities

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. Significant accounting policies (continued)

Share capital

Ordinary shares are classified as equity.

Off Balancesheet arrangements

In order to render investment services to clients, the Company holds assets on behalf of clients. The assets are kept in the Company's name on behalf of its clients in a fiduciary capacity and are not included as part of the Company's assets and liabilities in the financial statements.

Comparatives

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.

3. Financial risk management

Financial risk factors

The Company's activities expose it to market price risk, interest rate risk, credit risk, liquidity risk, currency risk and capital risk arising from the financial instruments itholds. The risk management policies employed by the Company to manage these risks are discussed below. The primary objectives of the financial risk management areto establish risk limits and then ensure that exposure to the risks stays within these limits.

3.1 Market price risk

Market price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices. As at 31 December 2016, the Company hold financial assets at fair value through profit or loss that are susceptible to market price risk arising from uncertainties about future prices of the investments (Note 14). Although the amount of financial assets at fair value through profit or loss is immaterial, the Company will manage any market risk arising in the future from holding these financial assets, through diversification of its investment portfolio.

3.2 Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates. Borrowings issued at variable rates expose the Company to cash flow interest rate risk. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. As at 31 December 2016, the Company did not have any borrowings. The Company as at 31 December 2016 had fixed rate deposits as per table below. The Company's Management monitors the interest rate fluctuations on a continuous basis and acts accordingly.

At the reporting date the interest rate profile of interest- bearing financial instruments was:

	2016 €	2015 €
Fixed rate instruments Financial assets	3.117	3.077
	3.117	3.077

Sensitivity analysis

Any increase/(decrease) in interest rates will have no effect on results and equity of the Company, because, all financial instruments are fixed rate.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

3. Financial risk management (continued)

3.3 Credit risk

Credit risk arises when a failure by counter parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the reporting date. The Company has no significant concentration of credit risk. The Company has policies in place to ensure that sales of services are made to customers with an appropriate credit history and monitors on a continuous basis the ageing profile of its receivables. Cash balances are held with various medium to high credit quality financial institutions and the Company has policies to limit the amount of credit exposure to any financial institution both in Cyprus and abroad. As at 31 December 2016, there were no impaired receivables (2015: \in NiI).

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2016	2015
	€	€
Trade and other receivables	24.170	1.340
Cash at bank	1.035.843	753.146
	1.060.013	754.486

3.4 Liquidity risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. An unmatched position potentially enhances profitability, but can also increase the risk of losses. The Company has procedures with the object of minimising such losses such as maintaining sufficient cash and other highly liquid current assets.

As at 31 December 2015, the management of the Company does not believe the current maturity profile of the Company exposes itself to any material liquidity risk, taking into account the level of cash at year end.

The following tables detail the Company's remaining contractual maturity for its financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

31 December 2016	Carrying amounts	Contractual cash flows	3 months or	3-12 months	1-2 years	2-5 years	More than 5 years
2010	€	€	€	J-12 HIOHUIS €	1-2 years €	2-3 years €	J years
Bank overdrafts Trade and other	53	53	53	-	-	=	-
payables	160.305	160.305		160.305			
	160.358	160.358	53	160.305			
31 December 2015	Carrying amounts €	Contractual cash flows €	3 months or less €	3-12 months €	1-2 years €	2-5 years €	More than 5 years €
Trade and other payables	<u>5.350</u> _	5.350		5.350			
	5.350	5.350	-	5.350	-		_

3.5 Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the Company's measurement currency. The Company is exposed to foreign exchange risk arising from various currency exposures primarily with respect to the US Dollar and the Russian Rouble. The Company's management monitors the exchange rate fluctuations on a continuous basis and acts accordingly.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

3. Financial risk management (continued)

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	Liabilities			Assets
	2016	2015	2016	2015
	€	€	€	€
United States Dollars	154.869	4.765	65.031	664.736
Russian Roubles	1.346	1.023	2.044	23.327
	156.215	5.788	67.075	688.063

At 31 December 2016, if the Euro had weakened/strengthened by 10% relative to the US dollar and Russian Rouble with all other variables held constant, post-tax loss for the year would have been €11.092 higher/lower (2015: €68.227).

3.6 Capital risk management

Capital includes equity shares and share premium, convertible preference shares and loan from parent company

Capital risk is the risk that the Company may lose value on its capital. When managing capital, the Company's objectives are to safeguard the Company's ability to continue as a going concern in order to provide terms for shareholders and for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Management of the Company carries out regular risk reviews and based on the identified level of risks ensures the adequate relation of the risk profile of the Company to its capital.

The legal and regulatory framework under which the Company operates, the Cyprus Securities and Exchange Commission ("CySEC"), stipulates that the Company must maintain a minimum capital adequacy ratio of 8%. The method of calculation is set up by the regulatory authority based on the International Basel II capital adequacy standards. The Company aims to always maintain a high capital adequacy ratio well above the required minimum. As at 31 December 2016 and 31 December 2015, Management believes that the Company's activities are strongly supported by shareholders' funds, with capital adequacy in excess of 30%.

According to the requirements of Cyprus Securities and Exchange Commission Directive DI144-2007-05 – Capital Requirements of Investment Firms more detailed information related to risks and risk management of the Company is disclosed on the Company's website www.nbinvest.com.

The capital risk management is currently considered by Management as one of the priority directions for the development of a risk management function and it is evolving together with the increasing business requirements.

The Company has complied will all externally imposed capital requirements throughout 2016 and 2015.

Fair value estimation

The carrying amounts and fair values of certain financial assets and liabilities are as follows:

	Carryir		Fair values	
	2016	2015	2016	2015
	€	€	€	€
Financial assets				
Cash and cash equivalents	1.036.663	753.415	1.036.663	753.415
Fair value through profit or loss	120	127	120	127
Financial liabilities				
Amortised cost				
Current borrowings	(53)		(53)	-
	1.036.730	753.542	1.036.730	753.542

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

3. Financial risk management (continued)

Fair value estimation (continued)

The fair value of financial instruments traded in active markets, such as publicly traded trading and available-for-sale financial assets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Company is the current bid price. The appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods, such as estimated discounted cash flows, and makes assumptions that are based on market conditions existing at the reporting date.

4. Critical accounting estimates and judgements

The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates and requires Management to exercise its judgment in the process of applying the Company's accounting policies. It also requires the use of assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on Management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Provision for bad and doubtful debts

The Company reviews its trade and other receivables for evidence of their recoverability. Such evidence includes the customer's payment record and the customer's overall financial position. If indications of irrecoverability exist, the recoverable amount is estimated and a respective provision for bad and doubtful debts is made. The amount of the provision is charged through profit or loss. The review of credit risk is continuous and the methodology and assumptions used for estimating the provision are reviewed regularly and adjusted accordingly.

Income taxes

Significant judgment is required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Fair value of financial assets

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Company uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at each reporting date. The fair value of the financial assets available for sale has been estimated based on the fair value of these individual assets.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

4. Critical accounting estimates and judgements (continued)

Impairment of non-financial assets

The impairment test is performed using the discounted cash flows expected to be generated through the use of non-financial assets, using a discount rate that reflects the current market estimations and the risks associated with the asset. When it is impractical to estimate the recoverable amount of an asset, the Company estimates the recoverable amount of the cash generating unit in which the asset belongs to.

Impairment of intangible asset

Intangible assets are initially recorded at acquisition cost and are amortized on a straight line basis over their useful economic life. Intangible assets that are acquired through a business combination are initially recorded at fair value at the date of acquisition. Intangible assets with indefinite useful life are reviewed for impairment at least once per year. The impairment test is performed using the discounted cash flows expected to be generated through the use of the intangible assets, using a discount rate that reflects the current market estimations and the risks associated with the asset. When it is impractical to estimate the recoverable amount of an asset, the Company estimates the recoverable amount of the cash generating unit in which the asset belongs to.

5. Revenue

19. Operating Environment of the Company

Cyprus Operating Environment

Cyprus exited its economic adjustment programme at the end of March 2016 after a successful return to markets and having utilised only about 70% of the €10 billion funding resources made available by the European Union (EU) and the International Monetary Fund (IMF). Based on the Ministry of Finance Stability Programme 2016- 2019 (May 2016), in the area of public finances, the government carried out a strong fiscal adjustment and the budget returned to near balance, public spending was reduced and tax collection was made more efficient.

Cyprus exited its economic adjustment programme at the end of March 2016 after a successful return to markets and having utilised only about 70% of the €10 billion funding resources made available by the European Union (EU) and the International Monetary Fund (IMF). Based on the Ministry of Finance Stability Programme 2016- 2019 (May 2016), in the area of public finances, the government carried out a strong fiscal adjustment and the budget returned to near balance, public spending was reduced and tax collection was made more efficient.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

19. Operating Environment of the Company (continued)

The international credit rating agencies have upgraded the rating of the country. Fitch Ratings upgraded the rating of the Republic of Cyprus one notch to BB- with a positive outlook in October 2016, S&P Global Rating by one notch to BB with a positive outlook in September 2016 and by one notch to BB+ with a stable outlook in March 2017 and Moody's Investors Service by two notches to B1 with a stable outlook in November 2015. In November 2016 Moody's Investors Service improved the outlook on the Republic of Cyprus from stable to positive.

In July 2016 the Cyprus government accessed international capital markets for the third time since the start of the economic adjustment programme to date, issuing a seven year Eurobond of €1 billion at a yield of 3,8%.

The Company's management has assessed the situation and has concluded that no provisions or impairment charges are necessary to be made on its financial and non financial assets.

Russian Operating Environment

The majority of the Company's clients are located within Russia. Consequently, the Company is exposed to the economic and financial markets of the Russian Federation which display characteristics of an emerging market including relatively high inflation and high interest rates. The legal, tax, customs and regulatory frameworks continue development, but are subject to varying interpretations and frequent changes which together with other legal and fiscal impediments contribute to the challenges faced by entities operating in the Russian Federation. The turmoil in Ukraine and related events has increased the perceived risks of doing business in the Russian Federation. The imposition of economic sanctions on Russian individuals and legal entities by the European Union, the United States of America, Japan, Canada, Australia and others, as well as retaliatory sanctions imposed by the Russian government, has resulted in increased economic uncertainty including more volatile equity markets, the continuing devaluation of the Russian Rouble, a reduction in both local and foreign direct investment inflows and a significant tightening in the availability of credit. The longer term effects of the implemented sanctions, as well as the threat of additional future sanctions, are difficult to determine. While management believes it is taking all necessary measures to maintain its viability and the development of the Company's business in the current economic environment, unexpected further deterioration in the areas described above could negatively affect the Company's results and financial position in a manner not currently determinable.

20. Related party transactions

The following transactions were carried out with related parties:

20.1 Directors' remuneration

The remuneration of Directors and other members of key management was as follows:

	2010	2013
	€	€
Non executive directors' fees	12.000	12.000
Directors' remuneration	220.428	220.428
	232.428	232.428

2016

21. Off Balance sheet arrangements

The Company in its ordinary course of business which primarily involves investment services holds on behalf of clients' cash and securities. These assets are not included in these financial statements (off balance sheet items). The clients cash balances and fair value of securities in different currencies as at 31 December 2016 were €20.111.359 (2015: €6.102.385) and €44.585.683 (2015: €59.211.854) respectively.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

22. Contingent liabilities

Off balance sheet risk

In the normal course of business, the Company enters into agreements to manage funds and assets of clients in accordance with the criteria established by the client. As a common practice, according to those agreements, the Company has no potential liability in respect of any losses and damage suffered by the clients as the result of common risks of investing and owning of the securities, except if resulting from gross negligence or willful default of the Company. Moreover, the Company does not provide any guaranteed returns to its clients from the assets that the Company manages on behalf of them.

As at 31 December 2016 and 2015 the Company was not engaged in any litigation proceedings.

23. Commitments

The Company has issued three letters of guarantee in favour of the Cyprus Chief Immigration officer needed for the foreign employees of the Company under the local laws and regulations for the amount of €1.950 (2015: €2.800). The amount is repayable upon demand subject to the local laws and regulations.

The Company had no any other capital or other commitments as at 31 December 2016 and 2015.

24. Events after the reporting period

There are no material events after the reporting date, which affect the Company's financial statements as at 31 December 2016.
