1. INTRODUCTION

Following the implementation of the Markets in Financial Instruments Directive 2014/65/EU (“MiFID II”) and in accordance to the provisions of the Financial Services and Activities and Regulated Markets Law of 2017 (the “Law”) of the Cyprus Securities and Exchange Commission (“CySEC”), NBI Investments Ltd (hereinafter called the “Company”) is required to establish an Order Execution Policy /Best Execution Policy (hereinafter called the “Policy”) and take all reasonable steps to obtain the best possible result (“Best Execution”) on behalf of its clients.

This Policy outlines the principles, procedures, and measures adopted by the Company to consistently achieve the most favorable outcomes for its clients. It takes into account the requirements of Delegated Regulation (EU) 2017/565 and explains the execution criteria and factors the Company considers when handling client orders. Furthermore, it sets out the information that must be provided to clients and prospective clients regarding the Company’s approach to achieving Best Execution on a continuous and systematic basis.

2. SCOPE

The Order Execution Policy of the Company applies to both retail and professional clients, when providing the investment service of Reception and transmission of orders only in relation to equities and fixed income as these are defined in point 1 and 2 of section C of Annex I of MiFID II.

The Company’s Best Execution obligations do not extend to Eligible Counterparties as per Article 30(1) of MiFID II.

Furthermore, the application of this Policy is limited in cases where the Company receives specific instructions from a client regarding the execution of an order. In such circumstances, as further detailed in Section 6 of this Policy, the Company will execute the order in accordance with those instructions, and its obligation to achieve Best Execution will apply only to those elements of the order not covered by the client’s explicit directions.

3. BEST EXECUTION FACTORS AND CRITERIA

When receiving and transmitting clients’ orders to third parties (“receiving firms”) for execution, the Company takes into account multiple Execution Factors, in order to obtain the best possible result for its clients, such as:

- Price;
- Likelihood of execution;
- Size of order;
- Likelihood of settlement;
- Costs (direct or indirect);
- Speed of execution;
- Nature of the order;
- Any other considerations relevant to the execution of an order (e.g. prevailing market conditions).

Nevertheless, where there is a specific instruction from the Client the CIF shall execute the order following the specific instruction.

The Company determines the relative importance of the aforementioned Execution Factors by taking into

account the characteristics of the following **Execution Criteria**:

- the client including the categorization of the client as Retail or Professional,
- the client's order,
- the financial instruments that are the subject of that order, and
- the Execution Venues to which that order can be directed.

The process by which the Company performs this assessment depends on the specifics of each case. The Company's execution obligations will be discharged in a manner that considers the different circumstances associated with the execution of the order as they relate to the financial instruments involved.

Price and costs will ordinarily be of high relative importance in obtaining best possible results. However, in some circumstances, reference to the Execution Criteria may appropriately determine that other Execution Factors have greater importance in achieving the best possible result for the client.

For retail clients, the best possible result shall be determined in terms of the total consideration, representing the price of the financial instrument and the costs related to execution, which shall include all expenses incurred by the client which are directly related to the execution of the order, including Execution Venue fees, clearing and settlement fees and any other fees paid to third parties involved in the execution of the order. The relative importance of the execution factors considered by the Company to obtain the best possible result for its clients are depicted in Annex 1 of the Policy.

A complete list of Execution Venues included in the Order Execution Policy of the Company can be provided to the client, upon request.

5. SELECTING AN EXECUTION VENUE

Subject to proper consideration of the Execution Criteria and Execution Factors referred to above, where there is more than one competing Execution Venue to execute an order for a financial instrument, the Company shall assess and compare the results for the client that would be achieved by executing the order

on each of the Execution Venues. The specific procedure was established and implemented to analyze and choose the proper execution venue based on ongoing monitoring of the available execution venues based on the criteria, outlined in paragraph 3.

The Company will transmit orders to those execution venues that it deems sufficient to provide the best possible result based on comparable venue information. Subject to any specific instructions, in meeting the best execution obligation to take all sufficient steps to obtain on a consistent basis the best possible result for the execution, the Company considers the following execution venues as appropriate:

- Regulated Markets (“RM”);
- Multilateral Trading Facilities (“MTF”);
- Organized Trading Facilities (“OTF”);
- Systematic Internalizers (“SI”);
- An entity which performs a similar function in a third country to the functions performed by any of the foregoing outside the EEA which are regulated according to their local rules.

6. SPECIFIC CLIENT INSTRUCTIONS

Where the client gives specific instruction as to the execution of an Order the Company shall execute the Order in accordance with that specific instruction according to Article 27(1) of MiFID II.

When the Company executes an order following specific instructions from the client, it should be treated as having satisfied its best execution obligations only in respect of the part or aspect of the order to which the client instructions relate. The fact that the client has given specific instructions which cover one part or aspect of the order should not be treated as releasing the Company from its best execution obligations in respect of any other parts or aspects of the client order that are not covered by such instructions.

The Company will not induce a client to instruct it to execute an order in a particular way, by expressly indicating or implicitly suggesting the content of the instruction to the client.

7. RECEPTION AND TRANSMISSION OF ORDERS

Subject to any specific instructions from the client (as per paragraph 6), the Company will transmit an order it receives from the client to an associated entity, such as a third-party broker or counterparty, for execution. In doing so, the Company shall act in the client’s best interests and will comply with section 3 above.

The Company will review periodically its choice of third-party brokers to ensure that the third-party broker has execution arrangements and execution policy that enable the Company to comply with all its best execution requirements. A complete list of third party brokers or counterparties can be provided to the client, upon request.

The obligation to provide best execution applies to all types of financial instruments captured under MiFID II and is not based on whether or not the instrument is listed in the European Economic Area. Therefore, the Company will require from third-party brokers or counterparties to demonstrate that they are providing with best execution on a consistent basis in line with the Policy.

8. CLIENT ORDER HANDLING

All client orders will be executed promptly and accurately recorded and allocated. The Company will inform retail clients about any material difficulty relevant to the proper carrying out of orders promptly upon becoming aware of the difficulty.

Where comparable orders are received, they will be processed sequentially, unless a specific client seeks to be treated otherwise. The Company will disclose any inducements and fees related to the use of execution venues to clients.

9. ORDER AGGREGATION

To carry out a client order in aggregation with either another client order, the Company will ensure the following requirements are met:

- a) The client has been made aware that aggregation may, in some cases; result in obtaining a less favourable price than if the order were executed separately;
- b) The Company, in its sole discretion and under prevailing market conditions, does reasonably believe that such action is likely to be within the client's best interests and the Company is able to demonstrate this;
- c) The decision to aggregate and, if necessary, reallocate will be made in accordance with any client instructions, having regard to price and volume and allocated accordingly;
- d) In the case where the Company is given a proportionate or pro-rated allocation, it will be able to demonstrate that it could not otherwise have executed the order on such favourable terms or at all, without its own participation.

10. MONITOR AND REVIEW

The Company will monitor on a regular basis the effectiveness of this Policy and the execution quality of the procedures explained in this Policy, making any changes where appropriate.

In addition, the Company will review this Policy at least once a year and will notify its clients of any material changes (including changes to the selected Execution Venues and third-party brokers). Upon request, the Company will demonstrate to its clients that it has executed their orders in accordance with its Order Execution Policy.

Pursuant to MIFID II, in case the transactions are executed outside of the trading venue (i.e. OTC), the Company will monitor and check the fairness of the price by collecting market data used in the estimation of the price of such products, and in cases that is possible, compare with comparable or similar products. The determination of the relevancy of any similar products or markets will be solely at the Company's discretion, when assessing and monitoring the fairness of price and may choose different markets for different products or circumstances.

11. CLIENT CONSENT

When establishing a business relation with the Client, the Company is required to obtain the Client's prior consent to this Policy.

The client shall be deemed to have provided such consent to the Order Execution Policy, as in force from time to time, by signing the Agreement or by effecting a transaction following the receipt of the notice of any amendment of the Order Execution Policy.

12. PUBLICATION OBLIGATION

The Company will summarize and make public on annual basis, for each class of financial instruments, the top five execution venues in terms of trading volumes where they execute orders in the preceding year and information on the quantity of execution obtained. The publication must be in line with the provisions of the Delegated Regulation (EU) 2017/576 and includes among others:

- a) Information on the class of financial instrument;
- b) Venue name and identifier; and
- c) Volume of client orders executed on that execution venue expressed as a percentage of total executed volume.

13. REQUEST TO DEMONSTRATE BEST EXECUTION

Upon reasonable request from a client, and provided that the order was subject to the requirements of this Policy, the Company will demonstrate to the client that it has been executed its order in accordance with this Policy.

In the absence of evidence, the records of the Company will constitute conclusive evidence to the actions taken by the Company to obtain best execution on behalf of its clients. The Company keeps records in relation to the best execution requirements, including records of its trading activities and versions of this Policy, for a period of five years in accordance with MiFID II.

14. ADDITIONAL INFORMATION REGARDING THIS POLICY

In case that a retail client requests additional information about this Policy, and the request is reasonable and proportionate, the Company will consider honouring such a request, especially where such information is requested to enable the client to make a properly informed decision about whether to utilise (or continue utilising) the services of the Company.

15. NOTIFICATION FOR CHANGES IN THE POLICY

The Company will notify its clients of any amendments of this Policy. A change is considered as material when its disclosure/publication is necessary to enable the client to make a properly informed decision about whether to continue utilising the services to the Company.

Specifically, the Company will consider the materiality of any amendment it makes to the relative importance of the execution factors or the execution venues that it places significant reliance in meeting the comprehensive best execution requirement.
